

# SUMIT KUMAR

Aspiring Software Developer — Full-Stack Web & Machine Learning — Python, React, Flask

Bhubaneswar, India 751024 — 📞 +91-7366006363 — ✉️ [sumitrانjanhisu@gmail.com](mailto:sumitrانjanhisu@gmail.com) — [🌐 linkedin.com/in/sumit7366](https://www.linkedin.com/in/sumit7366)  
— 🌐 Portfolio

## Summary

Motivated Computer Science MCA student with strong expertise in full-stack web development and machine learning. Skilled at designing responsive, scalable applications using React, Node.js, Flask, and MongoDB. Proficient in building RESTful APIs, managing databases, and creating intuitive front-end interfaces that enhance user experience. Strong problem-solving, collaboration, and analytical skills, committed to delivering efficient, maintainable, and data-driven solutions.

## Skills

**Programming & Querying:** Python, C, SQL, SQLite

**Frameworks & Libraries:** React.js, Node.js, Express.js, Flask

**Machine Learning & AI:** TensorFlow, Scikit-learn, Pandas, NumPy, Matplotlib

**Tools & Platforms:** Git, VS Code, Jupyter Notebook, API Integration

**Soft Skills:** Problem-Solving, Team Collaboration, Communication, Analytical Thinking, Adaptability

## Experience

### Python Intern

Jan 2024 – Mar 2024

OctaNet Services (Remote)

Certificate of Completion – Python Project Internship

- Engineered and debugged Python automation scripts, improving process efficiency by 30%.
- Created modular Python programs to automate repetitive workflows, saving 5+ hours weekly.
- Enhanced code reliability and performance through clean coding practices.
- Collaborated with mentors to deploy and test small-scale automation tools.

### Machine Learning Intern

Mar 2024 – Jun 2024

CodeAlpha (Remote)

Certificate of Internship

- Built and evaluated ML models on real-world datasets, improving model accuracy by 15%.
- Performed data preprocessing, feature extraction, and model validation.
- Integrated trained models into Flask-based web applications, reducing processing time by 20%.
- Documented experiments and contributed to team reviews to ensure reproducibility.

## Projects

### AI Transcript Generator | Next.js, Tailwind CSS, Prisma (SQLite), API Routes

- Designed an AI-powered web app converting audio into structured transcripts using advanced speech-to-text APIs.
- Implemented backend using **Next.js 15+**, **Prisma ORM**, and **SQLite** for efficient data management.
- Developed a responsive UI with Tailwind CSS and integrated dynamic API routes for smooth model interaction.
- Optimized export functionality and API response times to improve user experience.

## Awards & Certifications

- Internship Certificate – Younity
- Python Project Certificate – OctaNet Services
- Machine Learning Internship Certificate – Code Alpha (Mar 2024 – Jun 2024)

## Education

### Master of Computer Applications (MCA) – Computer Science

Expected Apr 2027

Kalinga Institute of Industrial Technology, Bhubaneswar

### Bachelor of Computer Applications (BCA) – Computer Science

May 2025

St. Xavier's College of Management & Technology, Patna
